

For the observation and recording of SFST/DRE eye tests

Now with Pupillometer

HawkEye™

⊕ CLEAR.

- Highest resolution from HawkEye™ twin video cameras
- Crisp audio via HawkEye™ Wireless Microphone system
- Specialized infrared illumination to enhance eye response even in total darkness

⊕ CONCISE.

- Lightweight / Handheld
- Patented reflective protractor for assistance in angle of onset determinations
- Optional drivers license video annotator and mobile storage case for easy transport

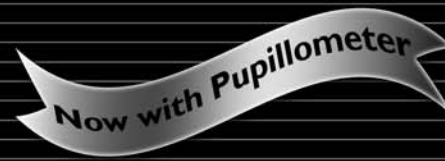

⊕ CONNECTED.

- Fully integrated system
- Can be used with any video monitor, DVD or VCR system
- Use for training or evidence gathering

AcuNetx™

We Read You Loud and Clear

HawkEye™ is the clear choice for visualizing eye signs in accordance with SFST/DRE testing for law enforcement world-wide. Simple to use and amazingly lightweight, it's also technologically superior. AcuNetx™ has developed advanced features and benefits to enhance eye images and audio annotation. This revolutionary system boasts specialized infrared illumination for image enhancement...even in individuals with dark irises...and in total darkness. Now with Pupillometer.

HawkEye™ with Pupillometer Includes:

HawkEye™ VIEWPORT

- Light weight (1.09 pounds)
- Constructed of durable black plastic
- Hand grip or tripod mount
- 512 x 480 pixel CCD camera, one for each eye
- 14' CAT5 cable connection to monitor interface
- Light occluding cover for 'dark-room' pupil evaluations
- Storage base

HawkEye™ REAL TIME DIGITAL QUAD SPLITTER

- Signal Format is standard NTSC/EIA : 525 lines
- Composite video input – 4 RCA jacks
- Composite video output for monitor, VCR/DVD
- Internal synchronization
- Real time at 60 fields/second
- Includes power adaptor

HawkEye™ WIRELESS LAPEL MICROPHONE SYSTEM

- Frequency 169.505, 170.245 or 171.905 MHz
- Transmitter
 1. Unidirectional directivity
 2. Sensitivity is 88dB SPL at 7 KHz FM

3. Operational Range of 200 feet
4. Power Source is 3.0VDC or 2-AA Batteries
5. Current Consumption is less than 60 mA
6. Battery life is about 40 hours with alkaline batteries
7. Dimensions 76x61x29mm
8. Weight is 57g

- Receiver

1. Line output of 510mV
2. Microphone output of 10mV
3. Frequency response of 80 – 10,000 Hz
4. Power requirement of 9V 200 mA AC/DC adaptor
5. Dimensions 170 x 106 x 37mm
6. Weight is 220g

HawkEye™ OPERATIONS MANUAL

HawkEye™ ONE YEAR WARRANTY ON PARTS AND LABOR

HawkEye™ DRIVERS LICENCE VIDEO ANNOTATOR (Optional)

HawkEye™ MOBILE CARRYING CASE (Optional)
